The OAKLEY MONTAGE KIT FOR PLEXI EU is the perfect accessory for securely and reliably mounting an Oakley Plexi during everyday hockey play. Especially with equipment used regularly, proper installation is key to ensuring that the visor and helmet function as a single unit and that there are no unnecessary interruptions on the ice.

- Product Type: Mounting kit for visor attachment
- Compatibility: for Oakley Plexi EU
- Application: Hockey equipment and replacement parts
- Function: For attaching a compatible Plexi to the helmet
- Installation: For new equipment or to replace existing mounting parts

Product information

- Contents: Mounting kit

Especially in club settings, where equipment is used intensively over long periods, the right small parts are often crucial. A coordinated mounting kit simplifies replacement in case of wear and tear or when rebuilding helmet equipment, and helps ensure the Oakley visor is properly reattached. This is particularly relevant for players and coaches who value equipment that functions well and is easy to maintain.

It is important to ensure compatibility with an Oakley Plexi EU as well as with the helmet being used or the existing visor mount.
