Product information

The WARRIOR LX 30 SR shin guards, available in 16 inches and 41 cm, are designed for senior players who value reliable protection and a simple, comfortable fit during practice and games. The combination of premium dual-density foam padding and plastic inserts in the calf area provides support in the critical zones without making the design unnecessarily complicated.

- Padding: Premium dual-density foam padding
- Protection area: Plastic inserts on the calf
- Closure: new straps for an easy fit and secure hold
- Lining: Mesh, breathable and quick-drying
- Size: SR
- Length: 16 inches / 41 cm
- Color: black

Especially when you're on the ice regularly, it's important to have gear that's easy to put on and stays comfortable even during longer sessions. The breathable mesh lining helps keep you dry, while the redesigned straps keep the shin guard securely in place on your leg. The additional reinforcement on the calf provides protection where direct contact frequently occurs in hockey. This model is therefore well-suited for club players and ambitious recreational players in the senior division who are looking for a sturdy shin guard with a clear purpose.

To ensure a proper fit, the 16-inch length should match the rest of your senior-level protective gear.
