Product information

Shin guards in inches: 12inch
Shin guards in cm: 30cm
Shin guard color: black
Shin guard size: JR

The WARRIOR ALPHA PRO JR Shin Guards, available in 12 inches or 30 cm, are designed for youth athletes, where protection, a secure fit, and ease of use during practice and games are especially important. The black JR version combines a lightweight, molded design with targeted cushioning in high-impact areas.

- Protection Area: Molded cut and calf protectors with a perforated, lightweight design
- Padding: Compression-molded EVA IMPAX foam in key impact zones
- Liner: Removable STRIKE gel liner with floating knee pad
- Hygiene: Polygiene technology for a cool, dry feel
- Closure: Sling Wrap strap system with Fantom Stretch and a new calf strap
- Comfort: Low-profile straps and Cloud Cuff foam padding in the ankle area
- Size: JR, 12 inches / 30 cm
- Color: black

In everyday hockey play, the combination of a lightweight shell, EVA IMPAX cushioning, and flexible support really makes a difference. The knee pad stays securely in place without the straps catching on socks, and the removable liner makes cleaning easier after intense ice sessions. This design is particularly intuitive and practical for young players and parents looking for well-designed protective gear.

For a proper fit, the JR size (30 cm) should match the player's height and the rest of their protective gear in the leg area.
