Body protection size: L

Product information

TRUE AX9 JR shoulder pads in black, size L, are designed for young players who are looking for noticeable protection during practice and games without being unnecessarily restricted in their mobility. The slim, anatomical design is tailored for active hockey and can be adjusted at multiple points.

- Technology: ABSOR FoamTech injection with hyperelastic EVA polymer
- Protection Area: Torso, plus AEROshield protection for the spine and chest
- Construction: Anatomical, slim unibody design
- Adjustment: Adjustable at the biceps, shoulder caps, collarbone, and clavicle pads
- Fit: Customizable for greater stability and freedom of movement
- Lining: Moisture-wicking polyester lining for a dry, lightweight feel
- Agegroup: JR
- Size: L

Especially for junior players, it's important that shoulder pads not only provide protection but also fit properly. This is where the adjustable system really shines: The pads can be moved closer to the body, ensuring that the shoulders, chest, and collarbone remain stable and controlled even during quick changes of direction, one-on-one battles, and repetitive training stresses. The combination of foam technology and a flexible design ensures a balanced ratio of cushioning and mobility.

When selecting a helmet, it's worth taking a close look at the age group and height to ensure the protective areas fit snugly.
