complements classic referee gear.

- Product Type: Protective vest for hockey referees
- IntendedUse: Games and practice with referee gear
- Fit: Regular
- Size: SR
- Protection area: Upper body
- Color: black

In the day-to-day life of a referee, equipment that effectively combines protection and mobility is especially important. A protective vest with a regular fit typically sits comfortably on the body and allows room for natural running and twisting movements—the kind constantly required during changes of direction, quick decisions, and long stretches of play throughout the entire game. This makes this model particularly suitable for active referees in club and match settings who are looking for a clear, straightforward solution for upper-body protection.

An important factor in selecting this vest is the combination of a regular fit and size SR, ensuring the vest can be worn neatly under the rest of the referee's gear.
