Protective paint: black

Brand: TRUE

Protection size-1: JR

Body protection size: L

Product information

The TRUE AX7 JR in black is a junior body protector designed for everyday hockey play, combining mobility on the ice with a sturdy yet lightweight feel. The one-piece design hugs the body's contours without feeling unnecessarily stiff, and is primarily aimed at young players who want to move, turn, and play freely during practice and games.

- Technology: ABSOR protection with molded hyper-elastic EVA polymer
- Construction: one-piece and anatomically shaped
- Feel: Designed for maximum mobility while providing protection
- Lining: moisture-wicking polyester lining
- Wearing comfort: keeps the pads dry and lightweight
- AgeGroup: JR
- Size: L
- Color: black

Especially for young athletes, body protection makes a big difference when training sessions become more intense and equipment shouldn't restrict movement. The molded EVA polymer provides structure to the protective area, while the anatomical shape supports natural movement. This ensures a comfortably balanced feel even during changes of direction and extended play. The polyester lining wicks away moisture, which noticeably contributes to a drier feel during regular training sessions.

When it comes to junior gear, it's worth taking a close look at the correct body size. This is the JR model in size L.
