Product information

Protective paint: black

Protection size-1: JR

Body protection size: L

The WARRIOR LX 20 JR is a shoulder pad designed for youth players that offers a great balance of protection and mobility. Available in the JR size and in black, this model is particularly well-suited for young players in regular practice and games who need a slim fit and want their gear to lie flat under their jersey.

- Shoulder pads: redesigned and flatter for a snug fit
- Padding: molded EVA Impax foam in key impact zones
- Protection concept: additional protection in high-impact areas
- Closure: high-quality straps for easy support and a secure fit
- Inner construction: breathable, quick-drying inner jacket
- Lining: Polygiene lining to reduce bacterial and microbial growth
- Mobility: Slim design with plenty of freedom of movement in the upper body
- Size: JR, body protector size L

In junior hockey in particular, it's important to have shoulder protection that doesn't get in the way during quick changes of direction, stick handling, and tight game situations. The flatter shoulder pads sit closer to the body, while the EVA Impax padding provides support where contact frequently occurs on the ice. Added to this is an inner jacket that remains flexible and quickly wicks moisture away. This ensures a more comfortable fit even during intense practice sessions.

For the best fit, the JR size L should fit snugly across the upper body without restricting shoulder movement.
