Helmet size: SR

UUSI PLEXI HV-1 PRO SERIES TINTED is a tinted visor designed for hockey use and is primarily intended for adult players who want to specifically upgrade their helmet gear. The yellow version from the Pro Series is clearly designed for everyday use in games and practice when a suitable replacement or interchangeable visor is needed.

Product information

- Product Type: Tinted Hockey Visor
- Series: HV-1 Pro Series
- Version: tinted, yellow tint
- Size: SR
- Application: for hockey helmets with visor mounts
- Variant: Yellow version for adults

In hockey, especially when it comes to equipment like a visor, it's not just the basic fit that matters, but also whether the chosen version matches the existing helmet and the player's specific area of use. The SR size is designed for adults and seniors, as is typical in club play and during intensive training weeks. The tinted version clearly positions this model within the Visio line and makes it a suitable choice for players who specifically seek this look for their helmet gear.

Before replacing your helmet, we recommend briefly checking the helmet shape and retention system.
