Color: clear

The FISCHER Plexi Vision 17 Pro F5 is a clear replacement visor for hockey use and is designed primarily for players who value a clear field of vision and a coordinated equipment set during practice and games. The transparent "clear" version blends discreetly into the overall setup and is designed to replace an existing visor.

- Product Type: Replacement visor for hockey helmet
- Model: Vision 17 Pro F5
- Color: clear

Product information

- IntendedUse: Hockey training and games
- Benefits: Unobstructed field of vision thanks to the clear visor design
- Compatibility: Fits only with compatible helmet and visor mounts

In hockey, in particular, a clear view of play development, puck control, and traffic in front of the net makes a noticeable difference. A replacement visor like this is therefore worth considering not only when equipment is damaged, but also when you want to fine-tune an existing setup. For club players and teams that use their equipment regularly, a precisely fitting visor solution is often more important in everyday play than flashy extra features.

Before making your selection, briefly check whether the shape and mounting system match the helmet you're using.
