In everyday hockey, a glove is ideal when mobility and control go hand in hand. That's exactly where this model fits in: as a senior glove for players looking for reliable gear for on-ice time, stick handling, and shots. The 14-inch size is common in adult sizes and is frequently used by club players who prefer a clear, familiar fit.

When selecting a glove, it's especially important to consider the appropriate senior size and how the glove works with your existing equipment.
