Product information

Glove size: 13inch
Glove color: red/white
Brand: WARRIOR

The WARRIOR ALPHA DX RED/WHITE SR is an ice hockey glove designed for players who want to combine a direct feel for the stick with noticeable protection during regular practice and games. The classic red-and-white look is paired here with a modern, anatomical design that fits closer to the hand, providing a more secure fit during quick movements.

- System: Hybrid Taper Fit
- Fit: Anatomical, closely following the natural shape of the back of the hand
- Mobility: responsive cuff for greater wrist freedom
- Thumb: flexible construction
- Palm: Soft palm, ready to play right away without a long break-in period
- Protective Construction: VN and HD IXPE foam with plastic inserts
- Size: Senior, 13 inches
- Color: red/white

The glove's tailored shape really makes a difference, especially during tight goal-line plays, passes on the move, and quick changes of direction. The glove follows the hand more naturally without unnecessarily restricting wrist movement. At the same time, the protective construction is designed to withstand hard impacts, such as those that regularly occur during training and one-on-one situations. Added to this is a high-end palm that provides a supple feel and makes the transition to new equipment easier.

The Senior 13-inch version is ideal for players who prioritize sufficient protection, precise stick control, and a flexible wrist area when choosing a glove.
