Product information

Glove size: 8inch

Glove color: black

TRUE CATALYST 9X BLACK YT is a hockey glove designed for players who are looking for a flexible fit with a direct stick feel during practice and games. The tapered shape hugs the hand more closely and supports controlled stick handling without unnecessarily restricting the wrist.

- Fit: tapered, contoured to the hand
- Palm: stitched AX SUEDE base palm with AX SUEDE overlay
- Gusset: AX SUEDE in pro style
- Foam construction: PRO GRADE variable foam construction with PE inserts
- Thumb: TRUEFLEX3 three-piece thumb design
- Outer shell: multiple materials with nylon and PU components
- Size: 8 inches
- Color: black

For junior and club players in particular, the balance between flexibility and feel is often crucial. AX SUEDE in the palm and gussets ensures a supple grip on the racket, while the variable foam construction with PE inserts supports the creation of classic protective zones. The TRUEFLEX3 thumb design provides additional flexibility in an area that's heavily taxed during tight game situations and quick hand changes. The multi-part outer shell combines this flexible feel with a sturdy foundation for regular ice time.

At 8 inches, the size should fit your hand and the rest of your protective gear so that the fit and range of motion remain optimal.
