Product information

Glove size: 12inch

Glove color: black

TRUE CATALYST 7X3 BLACK JR is a hockey glove designed for youth players, available here in a 12-inch size and in black. Especially at the junior level, it's important to have equipment that doesn't cause unnecessary distractions on the ice and moves naturally with the stick. That's exactly where this model fits in: as a glove for training and games in everyday hockey play.

- Product Type: Junior Ice Hockey Gloves
- Model: CATALYST 7X3 JR
- Agegroup: JR
- Size: 12 inches
- Color: black
- IntendedUse: Practice and Games

When it comes to junior gloves, the key is finding the right balance between flexibility, grip, and a design suitable for everyday use. This is especially important for young players who practice several times a week and are getting used to a clean feel for the puck and confident stick handling. This clear classification is also helpful for parents: 12 inches falls within the typical junior range and fits well with equipment that's already in regular use at the club.

When making a selection, in addition to the age group, the right glove size is crucial to ensure the glove fits neither too tightly nor too loosely.
