Product information

Glove size: 12inch
Glove color: red/white/blue
Brand: TRUE

TRUE A6.0 RED/WHITE/BLUE JR is a junior hockey glove designed for regular practice and games, ideal when a traditional fit with noticeable comfort and solid mobility is required. Especially for young players, it's important to have equipment that fits snugly around the hand, doesn't restrict stick handling, and provides a reliable feel during shots or one-on-one situations.

- Fit: traditional cut, designed for a comfortable fit on the hand
- Palm: AX suede, sewn into the palm
- Construction: traditional four-roll construction
- Protection: PRO-GRADE EPP foam with PE inserts
- Thumb: TRUEFLEX+ Lock thumb for greater mobility and flexibility
- Cuff: Ergonomic and flexible for unrestricted wrist movement
- Outer material: Nylon outer shell
- Size/Color: 12 inches, red/white/blue

During play, the combination of a classic design, AX suede, and a flexible cuff is particularly noticeable when receiving quick passes, setting up shots, or handling the stick closely. The hand stays securely supported without losing the feel for the stick. Added to this is a foam construction from the PRO line, which noticeably better absorbs impacts in everyday hockey play than simple entry-level models. For juniors playing in a club setting, this offers a balanced blend of protection, control, and a natural feel.

At 12 inches, this model is suitable for junior players; the glove size should match the player's hand size and desired fit.
