Product information

Glove size: 14inch

Glove color: navy

TRUE CATALYST 9X NAVY SR is a hockey glove designed for players who are looking for a direct stick feel and a flexible fit during regular practice and games. The tapered shape hugs the hand more closely and promotes a controlled feel without unnecessarily constricting the wrist.

- Fit: Tapered, contoured to the hand
- Palm: Stitched AX SUEDE base palm with AX SUEDE overlay
- Gusset: Pro-style AX SUEDE
- Foam construction: PRO GRADE variable foam construction with PE inserts
- Thumb: TRUEFLEX3, three-piece thumb design
- Construction: Multi-piece outer shell made of nylon and PU materials
- Color: Navy
- Size: 14 inches, SR

The combination of a flexible thumb, a grippy AX SUEDE palm, and a snug fit really makes a difference, especially during quick puck receptions, tight puck handling, and frequent shooting sequences. The multi-piece outer shell keeps the glove flexible, while the variable foam construction with PE inserts helps maintain a balance between mobility and solid coverage on the ice. For ambitious club players, this is a model that doesn't look bulky yet still offers substantial protection.

At 14 inches, this version is designed for senior players; for a comfortable fit, the size should match the rest of your protective gear.
