Pants color: black

Pants size: S

The CCM RH RBZ Girdle in black and size S is a girdle designed for inline hockey that combines protection and mobility in a snug, body-hugging fit. This design is particularly useful during regular practice and games, when you need your gear to fit compactly and function smoothly under a pair of matching overpants.

- Product Type: Girdle pants for inline hockey
- IntendedUse: Training and games

Product information

- Construction: Close-fitting protection system with girdle design
- Range of motion: Designed for direct, unrestricted movements in hockey
- Fit: Size S
- Color: black
- Age group: SR

A girdle is primarily designed for players who, when skating, changing direction, and in tight game situations, value a closer connection between protection and movement than that offered by traditionally cut pants. This can be noticeable on indoor surfaces and during inline hockey's fast-paced transitions, as the gear feels less bulky and moves more naturally with your body. The black design remains simple and sporty.

It's important to coordinate it with the rest of your protective gear and a matching pair of overpants so that the girdle fits snugly and doesn't slip during play.
