A pant cover is particularly useful when a uniform look is required for club activities or when existing pants need to be color-coordinated without replacing the entire uniform. The Velcro design offers the practical ease of use valued in hockey: simple to put on and suitable for regular use in the locker room, during practice, and at games. The Alpha model fits into a sports-oriented design where functionality and ease of use take center stage.

When selecting a size, it's most important to choose the senior size that matches your existing hockey pants so that the cover fits snugly and doesn't slip during regular play.
