Product information

Pants color: black

Pants size 1: SR

Pants size: XL

TRUE CATALYST 7X4 are ice hockey pants designed for ambitious club players who want to balance noticeable protection with freedom of movement on the ice. Available in black and size XL SR, this model is designed for senior players, for whom durable gear, a clean fit, and reliable coverage are particularly important in everyday gameplay.

- Product Type: Ice hockey pants
- Protection areas: Thighs, hips, and lower back
- Construction: high-density foam with hard plastic inserts
- Mobility: Ergonomic fit with a flexible design
- Ventilation: Integrated ventilation system for a drier feel
- Construction: Durable material with reinforced seams
- Size: XL / SR
- Color: black

On the ice, it quickly becomes clear how important it is to have pants that don't restrict movement during changes of direction, sprints, and one-on-one battles. The combination of dense padding and sturdy inserts protects key areas without unnecessarily limiting mobility. The sturdy construction also pays off, especially during regular training and intense games. The ventilation system helps maintain a more comfortable body temperature when the pace stays high and the gear is worn for extended periods.

To ensure a cohesive outfit, the senior size XL should match the rest of your protective gear and provide the desired fit around the hips.
