Product information

Pants color: black

Pants size: S

Pants size 1: SR

TRUE CATALYST 5X4 Player Pants in Black, Size S SR, are designed for ambitious hockey players and club players who are looking for a balanced combination of protection, mobility, and comfort on the ice. Especially during intense practices and tight game situations, you need pants that keep up with you without feeling heavy or restrictive.

- Product Type: Ice hockey pants
- Protection areas: Thighs, hips, and lower back
- Construction: High-density foam with hard plastic inserts
- Material: Lightweight, durable outer fabric
- Ventilation: Integrated system for air circulation and temperature regulation
- Fit: Ergonomic and designed for freedom of movement
- Variant: black, size S, SR

During play, this design is particularly noticeable when quick changes of direction, low knee positions, and close physical contact occur simultaneously. The padding covers key areas, while the flexible shape supports natural running motion. The ventilation system helps make the gear more comfortable to wear even during longer periods on the ice, which is a noticeable advantage, especially during regular training sessions. As a result, these pants are well-suited for players looking for athletic, modern gear with clear functionality for everyday club use.

When selecting a size, the Senior (SR) size should match the rest of your gear and the desired fit on the ice.
