Protex TIEFSCHUTZ JR is a classic groin guard designed for everyday youth hockey. Especially during practice and games, this protective gear is one of those items where a reliable fit and easy handling are crucial. Available in the JR version and

Product information

size L, this model is designed for younger players looking for a straightforward, simple solution for their basic gear.

- Product Type: Classic groin guard
- IntendedUse: Hockey practice and games
- Agegroup: JR
- Size: L
- Fit: Designed for youth sizes
- Model: Protex Classic 382

In hockey, a groin guard must, above all, fit comfortably so that players can stay focused on the game while running, changing direction, and engaging in one-on-one battles. Protex's Classic design is particularly appealing to clubs, parents, and youth players who want a tried-and-true, straightforward piece of equipment. For young players who train regularly and often put on and take off their gear themselves, a simple, clean design is especially practical.

When selecting a size, it's especially helpful to compare the JR and size L options with the rest of your protective gear and your height.
