Product information

Stick length:	24inch
Color:	black
Goalkeeper Regular/Fullright:	Regular
Bends:	TWT Curve
Stick size:	SR

The WARRIOR M3 SR is a goalie stick designed for regular use on the ice, prioritizing a lightweight, well-balanced feel and quick reactions during play. The Minimus Carbon construction with a low kick point supports quick puck releases, while the classic shaft geometry provides familiar handling. Available in black, with a 24-inch length, TWT Curve, and Regular orientation, this model is particularly well-suited for senior goalies seeking direct, controlled stick handling in both practice and games.

- Technology: Minimus Carbon with a low kick point
- Construction: HiFused for a lightweight, balanced overall feel
- Shaft: traditional geometry with SlideGrip
- Reinforcement: Impact Fiber Layer in the shaft
- Blade: glossy finish for protection against wear
- Length: 24 inches
- Bend: TWT Curve
- Model: SR, Regular, color: black

The synergy of these features is particularly noticeable when playing as a goaltender: The stick feels stable in the hand, responds cleanly to passes, and supports quick movements when clearing the puck. The SlideGrip surface helps maintain a consistent hand position without losing the familiar feel of a classic shaft. Added to this is the reinforced shaft construction, which is ideal for intense ice time during regular club play.

Key factors for selection include the blade orientation, the Regular model, and the 24-inch length.
