Goalkeeper color: black

The WARRIOR X4 E+ is a goalkeeper's groin guard that proves essential in situations where fast shots, rebounds, and tight plays in front of the net are a daily occurrence during practice and games. Especially for goalies, equipment that clearly serves its purpose and integrates seamlessly into the overall setup without causing unnecessary distraction is essential. The black design remains understated and unobtrusive.

- Product Type: Groin guard for hockey goalies
- Model: X4 E+

Product information

- Agegroup: INT
- Intended use: Training and games in the goalie area
- Protection area: sensitive lower abdomen
- Fit: Tailored to the demands of goalkeeping
- Color: black

Goalkeeping isn't just about protection; it's also about ensuring that movements in the basic positions—whether sliding or standing up—aren't unnecessarily restricted. A groin guard like the WARRIOR X4 E+ INT is therefore one of those pieces of equipment that should fit properly from the start and be chosen to coordinate seamlessly with the leg and pant areas. This is particularly important for youth and club goalies in the INT category, especially when the equipment is used regularly in practice and needs to be reliably coordinated during games.

To make an informed choice, the INT size should match the rest of the goalkeeper's equipment and the player's height.
