Product information

Goalkeeper Regular/Fullright: Regular
Goalkeeper color: white
Goalkeeper size: INT

TRUE HZRDUS 7X4 is a goalkeeper stick glove designed for use on the ice, offering plenty of freedom of movement and a direct feel in the catching hand. In the white INT version with a regular hand position, this model is primarily aimed at young goalies who are looking for a flexible, modern design for both practice and games.

- Product Type: Goalie stick glove
- Design: 615 construction without an outer binding
- Mobility: split cuff for greater mobility
- Grip: Sure-Grip palm for precise stick control
- Protection: Internal cuff protection and thumb protection
- Fit: Regular
- Size: INT
- Color: white

The open, mobility-focused design is particularly noticeable when actively maneuvering the stick and reacting quickly to changing game situations. Added to this is the split cuff, which allows for greater freedom of movement in the wrist. At the same time, the Sure-Grip palm provides a controlled feel for the stick, which is noticeable during rebounds, puck handling, and quick adjustments in front of the net. The integrated protection in the cuff and thumb areas effectively complements the overall design without making the glove feel unnecessarily stiff.

Key factors to consider when selecting a glove are the INT size and the Regular hand position to ensure the glove fits with your existing goaltending equipment.
