Goalkeeper size Shooter: L/XL

BLUE SPORTS AEGIS INTERCEPTOR GOALIE is a neck protector for goalies designed for use where sensitive gear is needed during games and practice: at the junction between the mask, chest protector, and jersey. Available in black and size SR

Product information

L/XL, this model is designed for adult goalies who want to coordinate their gear seamlessly.

- Product Type: Neck protector for ice hockey goalies
- Model: AEGIS INTERCEPTOR GOALIE
- Intended Use: Training and games in the goalie area
- AgeGroup: SR
- Size: L/XL
- Color: black
- Fit: For adult goalies, with a wider range of sizes

In goal, it's not just about protection for the large areas—it's also about a harmonious overall feel in the upper body. A neck guard like this model is therefore a staple of many club players' gear because it integrates the neck area into the setup of the mask and upper-body protection without compromising mobility and fluidity in the goal crease. The SR version in L/XL is particularly well-suited for adult goalies who need a bit more room when choosing a size or who deliberately avoid wearing their gear too tightly.

For a cohesive setup, the size should match the rest of the goalie equipment and your personal comfort.
