Goalkeeper Regular/Fullright: Fullright

Goalkeeper color: white

Goalkeeper size: SR

The WARRIOR G6.1 E+ SR is a catching glove designed for goalies who prioritize ample coverage, a clean closing motion, and a direct feel in the hand during practice and games. Available in white, size SR, and in a right-handed configuration, this

Product information

model is designed for experienced goalies who wear their catching glove on the right hand.

- Technology: CoverEdge+ for maximum coverage
- Catching cage: increased volume at the fingers for a longer catching cage
- Functionality: Closure from the index finger to the palm
- Construction: Reinforced internal bracing for a stable catch basket shape
- Core: Reinforced HyperComp core
- Protection and Weight: Super-lightweight construction with a high level of protection, according to the manufacturer
- Variant: SR, Fullright, white

The combination of a larger catching basket and a stable internal construction really makes a difference, especially during fast shots and heavy traffic in front of the net. The puck can be caught with greater control, while the closure fits more naturally in the hand. The fact that WARRIOR keeps the G6.1 E+ lightweight helps during daily training as well as in long games, because the hand remains agile while the glove still offers solid support.

When selecting a glove, be sure to choose the Fullright version, as it is designed for goalies who catch with their right hand.
