The Cat-Eye design has been popular among goalies for years because it clearly stands out from classic straight-bar designs. Combined with the double-bar construction, it creates a distinctive front that pairs well with helmets used regularly on the ice or in the arena. For clubs, active goalies, and anyone looking to replace or upgrade an existing setup, this chrome-colored version is a sleek and sport-inspired choice.

Before making your selection, it's worth taking a quick look to ensure compatibility with your existing helmet.
