Color: white

GREEN GITTER VICTORY CAT EYE TRIPLE BAR WHITE is a white goalie face mask for hockey helmets, designed for goalies who specifically look for this Cat Eye model with a triple-bar construction when purchasing replacement parts. A properly fitting cage is especially important during daily training and games if you want to continue using an existing helmet and complement it properly.

Product information

- Product Type: Goalie cage for hockey helmets
- Model: Victory Cateye
- Construction: Triple Bar
- Color: white
- Intended use: Ice hockey goalies
- Use: Replacement or exchange of an existing cage

The Cateye shape is a well-known face mask design in goaltending and is often chosen when field of vision and a familiar helmet fit are important factors. The Triple Bar design fits perfectly into this category and is particularly suitable for goalies who do not want to completely change their equipment but rather want to upgrade their helmet with a compatible cage. This is also helpful for teams or equipment managers when looking for a specific replacement of the same design.

Before making a selection, compatibility with the existing goalie helmet should be checked.
