Product information

- Application: Goalie mask for hockey

For senior-level goalies and teams that take good care of their equipment, a properly fitting chin guard is more than just a small part. In everyday play on the ice, it quickly becomes clear how important a properly fitted lower mask section is, whether during training with many repetitions or on game days with extended playing time. The Standard version keeps the selection simple and is designed for anyone who wants to fully equip an existing sports mask.

It's important to ensure compatibility with a size SR sports mask.
