Textile dye: white

The CCM Leather Strap in white is a classic replacement part for hockey equipment, whether you need to replace an existing strap or repair a worn-out attachment. Especially during regular training and club activities, these small parts are often crucial for keeping your equipment securely assembled.

- Product Type: Leather strap for hockey equipment
 - Material: Leather
 - Application: Replacement or exchange part for fasteners
-

Product information

- Color: white
- Model: CCM AP7003/3810
- Package Contents: 1 leather strap

A leather strap of this type is well-suited for the everyday needs of players, teams, and equipment managers who prefer to continue using their gear sensibly rather than replacing it immediately. Leather is a tried-and-true material for fasteners like these and is ideal wherever a simple, sturdy connection is needed. The white version blends discreetly with light-colored equipment and maintains a classic, understated look in the hockey context.

Before replacing the strap, it's worth taking a quick look at the shape, length, and attachment method of the existing strap to ensure the new one matches your current equipment.
