Product information

Color: black

WALL CATEYE DOUBLE BAR is a black goalkeeper cage designed for players who prefer a Cateye shape with a double-bar construction for indoor or field hockey. This model is primarily designed for players who train and compete regularly and prioritize a clear field of vision and a proper fit with their helmet.

- Product Type: Goalkeeper Helmet Face Mask
- Shape: Cateye
- Construction: Double Bar
- Application: Hockey goalkeeper equipment
- Color: black

The Cateye shape is particularly popular among goalies where quick reactions and a clear view of the ball, stick, and traffic in front of the net are crucial. Combined with the Double Bar design, it creates a distinctive cage solution familiar to many goalies in competitive hockey. Especially during intense training weeks or in everyday club play, not only protection but also a familiar field of vision plays an important role, because any change to the helmet can affect orientation in the goal.

Before making a selection, it's worth taking a quick look at compatibility with your existing helmet, as the visor's shape and mounting must match your specific model.
