Color: black

WALL CATEYE CE BLACK is a black visor for hockey helmets, designed for players who prefer the classic Cateye style during practice and games. This design is commonly used by goalies and is often chosen when an unobstructed field of vision is important.

- Product Type: Helmet Visor
- Model: Cateye CE
- Applications: Hockey, especially goalie equipment

Product information

- Color: black
- Construction: Mesh design for helmet mounting
- Installation: Compatible with helmets featuring a grille mount

In a goalie's day-to-day routine, what matters most is how comfortable the equipment feels and how naturally the field of view remains focused on the puck, the slot, and the action in front of the net. This is exactly where a Cateye cage comes into play. The black version has a understated look and visually complements many helmet setups used in club and competitive play. For goalies looking to replace an existing cage or specifically customize a new helmet setup, this version is a clear and sport-oriented choice.

Before making a selection, it's worth taking a quick look at compatibility with your existing helmet, as the shape and mounting method may vary depending on the model.
