Product information

Shoe size Skate Size: 3
Shoe size Europe: 36
Shoe color: black
Shoe width: R (Regular)

TRUE CATALYST 5X4 REGULAR JR is a junior hockey boot designed for young players looking for a clean, straightforward fit on the ice. In the Regular width, the skate fits well-balanced without being unnecessarily tight—which is especially important during practice and regular ice sessions for youth players.

- Product Type: Junior Ice Hockey Skate
- Model: CATALYST 5X4
- Fit: R (Regular)
- Shoe size: Skate Size 3 / EU 36
- AgeGroup: JR
- Color: black
- IntendedUse: Ice hockey training and games

For young players in particular, it's not just about the right length—it's also about having a secure fit in the skate. A regular fit works well for feet that are neither particularly narrow nor noticeably wide. This helps players maintain control while skating during everyday club activities and execute clean movements on the ice. This model is part of TRUE's CATALYST line and is designed for families and young players looking for a suitable hockey skate for regular use.

Important for selection: In addition to EU size 36, the key factors are Skate Size 3 and width R.
