Textile size-1: JR

Textile size: XL

The WINNWELL SHIRT WINNWELL NECKGUARD JR is a functional base layer for everyday hockey play when extra neck protection is needed. Especially in youth hockey, where training, games, and equipment must work seamlessly together, the integrated neck protection design offers a practical and compact solution built right into the shirt.

- Product Type: Base layer shirt with integrated neck protection
- Certification: BNQ- and CE-certified

Product information

- Protective material: DuPont KEVLAR fibers
- Protective function: cut-resistant area at the neck
- Adjustment: Easily adjustable collar
- Fit: Adjustable for individual comfort
- Agegroup: JR
- Size: XL

During play, the shirt is worn as a base layer under the rest of the hockey gear and combines this function with a specifically designed neck area. The adjustable collar helps tailor the fit to different preferences and to the rest of the gear, ensuring nothing unnecessarily bothers the neck. The DuPont KEVLAR fibers are designed to provide cut-resistant protection, making this model particularly appealing in junior hockey where certified equipment is required.

When selecting this item, in addition to the junior version, the most important factor is choosing the right size (XL) so that the shirt fits snugly and the neck area lies flat against the skin.
