Especially in the world of hockey, where gear is often shuffled between the locker room, the bus, and the arena, a cap's most important feature is a comfortable, hassle-free fit. The Flex System helps ensure the cap fits securely and comfortably without feeling stiff. The WAR-TECH mesh panels provide additional ventilation, keeping you comfortable before and after practice or during long tournament days. For club players and coaches who want to clearly show their team spirit even off the ice or field, the 3D embroidery on the front adds a distinctive touch without looking overdone.

The one-size-fits-all design accommodates many head shapes; therefore, when choosing a size, the primary consideration is the desired fit of a flat cap.
