Especially during longer runs or when switching between warm-ups, intervals, and cool-downs, it's important that your shorts don't feel constricting and that small essentials stay neatly stowed away. The back pocket holds your cell phone, while smaller front pockets provide space for essentials. The elastic loop system is also practical for everyday training, allowing you to easily secure extra clothing.

When selecting a size, the listed size S in the SR version is the determining factor.
