Product information

The PLAYMAKER 20-inch HANDBALL COACHING BOARD helps you visualize handball plays quickly and clearly. Especially in everyday club activities, during school classes, or during brief discussions between two drills, a whiteboard where game situations, running routes, and defensive formations can be recorded immediately is essential.

- Product Type: Handball coaching board
- Applications: Training, game strategy discussions, and teaching tactics
- Size: 20 inches
- Usage: Suitable for sketching plays and positions
- Target audience: Coaches, clubs, and schools
- Sport: Handball

The 20-inch version offers a practical surface for clearly presenting content without being cumbersome during training sessions. This is particularly helpful when adjustments need to be explained quickly or when specific offensive and defensive situations need to be reviewed to restore calm within the group. In handball, where shifts in pace, spatial distribution, and coordination often occur very quickly, a coaching board provides clear guidance.

For coaches and teams that regularly work with tactical diagrams, Groß is particularly useful when both a clear overview and portability are equally important.
