Product information

Accessory size: 36inch

The WINWELL HOCKEY GOAL HD PROFORM 36-inch is designed for young players, families, and coaches looking for a compact hockey goal for shooting and passing drills. The steel frame provides a stable base, while the included net makes the goal ready for immediate use. Measuring 91 x 61 x 30 cm, the 36-inch model fits well in smaller practice areas around the house or in everyday club settings with limited space.

- Product Type: Hockey Goal
- Construction: Steel frame
- Net: included
- Size: 36 inches
- Dimensions: 91 x 61 x 30 cm
- Applications: Shooting, passing, and shooting accuracy drills

Especially during technical training, a goal that's quick to set up and easy to use on a daily basis is essential. The compact design helps players practice accuracy and finishing under controlled conditions without taking up much space. For younger players or casual sessions in the backyard, this size is easy to manage, and coaches can also use it to set up small stations for precise finishing or passing drills.

The 36-inch size is particularly suitable for situations where a full-size goal would be too large.
