plus Shipping

 **FREE SHIPPING** from **CHF 150** (except bulky goods)  
in Delivery between **Thu 29. Oct - Mon 02. Nov 2026**

6 in stock

## Product information

---

WINWELL METAL GOAL TARGET is a practical training aid for shooting drills in hockey, designed to help players direct their shots into specific corners or areas of the goal. The metal target disc attaches directly to the goal and provides a clear target, which is often required during club practice, at school, or during individual skill drills.

- Product Type: Metal Target for Hockey Goals
- Function: Shooting target for attachment to the goal frame
- Compatibility: Fits tube diameters from 2.5 to 5 cm
- Adjustment: Adjustable clamps for a secure fit
- Applications: Shooting and target practice on the field or in the gym
- Package Contents: 1 piece

This type of shooting aid is particularly useful for coaches and teams when exercises need to be set up efficiently and quickly adapted to different goals. The adjustable clamp range makes it easy to use on different goal frames without lengthy setup. This is especially helpful during structured training sessions when multiple stations need to be set up or exercises are regularly varied.

Before installation, it's worth taking a quick look at the tube diameter of the goal being used to ensure the metal target can be securely fastened.
