Product information

SILOPAD GEL SQUARES 4x4 inches (2 PIECES) are square-shaped gel pads used to relieve pressure points or provide localized cushioning when wearing sports equipment. Especially during everyday sports activities, when protective gear, ice skates, or other equipment causes localized pressure, these gel pads offer a simple way to provide targeted relief for sensitive areas.

- Product Type: Square gel pads
- Size: 4 x 4 inches
- Style: Square
- Application: Local padding and pressure relief
- Material: Gel
- Package Contents: 2 pieces

For players who prioritize well-coordinated equipment during regular training sessions, these gel inserts are particularly useful when a complete replacement isn't immediately necessary. The square shape is well-suited for clearly defined areas, such as those subject to recurring pressure. The 2-piece set also provides a practical solution for everyday club use or when adjusting equipment, especially when minor adjustments to the padding are needed.

Before use, it's worth taking a moment to check whether the size and shape match the desired location in the gear.
