HOWIES STICK WAX is a classic stick wax for hockey players who want to keep their tape and blade in good condition during practice and games. Applied to the blade, it helps keep the tape surface clean and is a staple in the equipment bag for many club players.

- Product Type: Stick wax for hockey sticks
- Application: Blade and tape
- Application: Can be applied directly to the stick
- Benefits: Helps maintain the taped blade
- Form: Compact stick format

Product information

- Target audience: Club players and those who train regularly

Especially for frequently used sticks, a simple accessory often makes more of a difference than it seems at first glance. Stick Wax is applied directly to the taped blade and is quickly at hand during everyday hockey, whether in the locker room before practice or just before the next game on the field. The compact design fits easily in a bag and is ideal for players who regularly prepare their equipment and value a well-maintained stick.

To use it, apply the wax to tape that's already been applied to the blade.
