BLUE SPORTS BLUE CLEAR ANTI FOG helps in everyday hockey situations where fogged-up vision quickly becomes a problem. As an anti-fog product, it's particularly useful for equipment with clear viewing surfaces—for example, when moisture and temperature changes impair vision during practice or games.

- Product Type: Anti-fog product for clear viewing surfaces
- Function: Prevents fogging on transparent equipment parts
- Applications: Hockey, training, and games
- Benefits: Helps maintain a clear view in humid conditions and when temperatures fluctuate
- Suitable for: Equipment with clear surfaces such as visors or similar viewing areas

Product information

Especially during intense indoor or on-ice play, heat and moisture often accumulate precisely where clear vision is crucial. BLUE CLEAR ANTI FOG is therefore particularly beneficial for players and goalies who want to avoid unnecessary visual obstructions from their equipment. The practical benefit lies not in complex technology, but in a simple, intuitive function: to reduce fogging so that movements, the puck, and the game situation remain clearly visible.

Before use, it's worth taking a quick look to see if the product is compatible with the specific surface of your equipment.
