BLUE SPORTS "SKILL GOAL" ICE HOCKEY GOAL is a small training goal designed for ice hockey practice away from the regular goal. With its compact size, it's particularly well-suited for passing and precision drills that focus on clean passes and controlled shots.

- Product Type: Small ice hockey goal
- Application: Training passing accuracy
- Training benefits: promotes precise passes and controlled shot placement
- Design: Compact goal shape for technical drills in tight spaces
- Dimensions: 36 x 21 x 36 cm

Product information

Especially in youth programs and club training, repeatable technical drills are often more important than sheer shot power. A small goal like this clearly focuses attention on accuracy, timing, and clean execution. This is helpful for station drills, passing drills, or short off-ice sessions when working with limited space. Its small size creates a challenging target that promotes precise play and keeps drills varied.

The dimensions are intentionally compact, making it particularly well-suited for technique and precision training—not as a replacement for a regular goal.
