BLUE SPORTS SHIN PAD TUBES are a simple and practical addition to your hockey gear, ensuring that shin guards stay securely in place during both practice and games. Especially in everyday club play, when gear needs to be put on quickly

Product information

and nothing should slip under the socks, this black version offers a neat and straightforward solution.

- Product Type: Shin Pad Tubes for Hockey Shin Guards
- Function: Secure shin guards under the socks
- Usage: Practice and games
- Size: SR L/XL
- Color: black
- Fit: Designed for senior players

These shin tubes are particularly useful for senior players looking for a quick, neat way to secure their gear and who don't want to constantly have to readjust their shin guards on the ice. Unlike improvised solutions, this setup remains clean, compact, and closer to standard hockey gear. This is especially convenient when there's little time before practice or when multiple sessions per week are part of your routine.

When selecting these shin tubes, the most important factor is choosing the right size to fit your shin guards and the senior size range.
