SID ICE WAX is a wax for hockey sticks and is primarily intended for players who train and play regularly and who value a consistent feel on the blade. Applied to the tape, it helps maintain a well-cared-for surface and is, for many, a natural part of their daily hockey equipment care routine.

- Product Type: Wax for hockey sticks
- Application: Maintenance of taped blades
- Application: Apply to the tape on the blade
- Sport: Hockey
- Model: ICE WAX

Product information

Especially with frequent use in indoor rinks, during practice, or in games, stick wax helps keep a freshly taped blade clean for longer. In specialty hockey stores, this type of accessory is one of those small items that can make a noticeable difference in everyday use, since the blade is subjected to regular wear and tear and maintaining the tape is a standard part of the routine for many club players. Such a product is also practical for teams and coaches when equipment needs to be quickly prepared before practices or tournaments.

It works best when applied to clean, dry tape.
