Product information

Textile dye: navy
Brand: WARRIOR
Textile size-1: SR
Textile size: XXL

The WARRIOR T-SHIRT COVERT TECH NAVY SR is a lightweight training shirt for hockey players who appreciate a comfortable, dry feel on the ice, in the arena, or during summer training. The thin polyester fabric is barely noticeable and allows for unrestricted movement, especially as workouts get more intense.

- Technology: Wartech Moisture Management
- How it works: wicks sweat and moisture away from the body
- Material: 100% polyester, thin and lightweight
- Construction: Structured, pre-shaped shoulder panels
- Side panels: concealed colored stretch panels
- Details: Printed logos, tone-on-tone W logo on the lower back
- Color: navy
- Size: SR, XXL

The functional design really shines during regular club practice: moisture is quickly wicked away, while the stretch panels on the sides support mobility during quick changes of direction and stick handling. The contoured shoulder areas also give the shirt a sporty silhouette without restricting movement. This makes it a great fit for players looking for a functional top without unnecessary weight for off-ice sessions, warm-ups, or casual team practices.

The SR and XXL sizes are suitable for adults; to find the right fit, simply compare them to your usual training clothes.
