Product information

Shoe size Skate Size: 6
Shoe color: black

KNAPPER AK5 HOCKEY SHOES SR are designed for senior-level players who are looking for a shoe that provides direct, stable support on indoor surfaces during quick changes of direction, stops, and evasive maneuvers. In black, the model has a clean, understated look, but it's the functional design that really matters during the game.

- Grip: ultra-grippy sole for precise steps and controlled changes of direction
- Technology: Axial torsion control to support the foot during rotational movements
- Protection: Reinforced toe cap as an additional layer of protection in the forefoot area
- Cushioning: Padded protective elements for greater comfort during intense game situations
- Feel: a balanced combination of support and flexibility
- Age group: SR
- Size: Skate Size 6
- Color: black

In floorball, small differences in a shoe can make a big difference. When the game gets tight and your legs are constantly under strain on the court, a grippy sole helps you execute clean movements without the shoe feeling sluggish. The torsion protection stabilizes the foot during dynamic turns, while the cushioning comfortably cradles the foot even during longer practices and games. The reinforced toe cap reinforces the structure in areas that are particularly prone to contact during play.

When selecting a shoe, in addition to age group, the most important factor is choosing the right skate size 6 to ensure that support and mobility work together harmoniously on the field.
