| Stick size:                   | JR      |

The TRUE PROJECT X/2024 JR is a junior hockey stick designed for youth players, specifically targeting young athletes for whom the right length and a comfortable feel are crucial. The black design has a understated look; the focus here is clearly on its classification as a JR model measuring 21 inches or 53 cm.

- Product Type: Junior Hockey Stick
- Model: Project X/2024
- Agegroup: JR
- Length: 21 inches / 53 cm
- Model: T31 L
- Color: Black

Especially in youth hockey, the right stick length makes a big difference in practice and games. A JR model like this promotes proper form and helps players develop technical skills—such as passing, receiving, and taking their first shots—in a controlled manner. The 21-inch length is designed for youth players and is suitable for those who aren't yet using a senior or longer intermediate model.

In addition to the length, it's important to note the T31 L designation when selecting this model to ensure it matches your existing equipment and playing style.
