Product information

Goalkeeper color: navy
Goalkeeper size Shooter: S
Goalkeeper size: INT

TRUE WARRIOR CATALYST 9X5 SR navy are goalie pants designed for ambitious goalies who need a perfect balance of protection and mobility. Designed for elite goalies, this model in INT size S is aimed at players who want to get into position quickly during practice and games, follow through cleanly, and get back up without resistance after a save.

- Product Type: Goalie pants for hockey goalies
- Technology: IBP 3D-molded back frame
- Protection Area: Reinforced impact protection in the back and hip areas
- Construction: double-layered hip pads and internal stretch inserts
- Fit: Flexible, adjustable waistband
- Mobility: Designed for fast, unrestricted upper-body movement
- Material properties: lightweight and water-repellent
- Variant: INT, Size S, Color navy

Especially at higher skill levels, the difference often lies in small movements: when shifting laterally, during a rebound, or when you need to regain height immediately from a low position. This is exactly where the flexible construction—with stretch zones and a flexible waistband—shines. At the same time, protection remains in high-impact areas without making the pants feel unnecessarily bulky. The water-repellent, lightweight design also ensures consistent comfort over extended periods on the ice.

For a seamless fit within your goalie setup, the INT size S should match the rest of your goalie gear and your desired fit.
