Especially for youth players, it's important that protective gear not only fits well but also works in harmony with the typical movements of a goalkeeper. The ergonomic abdominal pad supports a stable position in goal without unnecessarily restricting movement. Combined with its easy integration into goalkeeper pants, this creates a clean, comfortable fit that provides noticeable support during training and in game situations involving frequent changes of direction.

Size YT is designed for young goalkeepers; for a proper fit, the groin guard should be selected to match the rest of the goalkeeper's equipment.
