in Delivery between **Thu 29. Oct - Mon 02. Nov 2026**

1 in stock

Shoe size Europe: 38.5
Shoe size Skate Size: 5
Shoe color: black
Shoe width: D (Regular)
Shoe size: JR

Product information

The CCM JetSpeed FT460 Goaler JR is a goalkeeper shoe designed for youth players, engineered for quick movements during games and regular training. The black version has a simple, understated look, but what really matters here is the construction: The open design reduces weight and increases the angle of attack, which can be particularly noticeable during dynamic movements in goal.

- Product Type: Junior Goalkeeper Shoes
- Construction: open design without a shell
- Performance Benefits: Reduced weight and increased angle of attack
- Stability: Structural rigidity for support in the ankle area
- Customization: thermoformable construction for a more personalized fit
- Intended Use: Competition and training in the hockey goal
- Color: black

For junior goalies in particular—who are developing their technical skills and becoming more active in goal—the balance between mobility and support is especially important. The FT460 combines a stable base in the ankle area with a fit that can be better adapted to the foot thanks to the thermoformable process. This helps tailor the shoe more closely to the player's own movements without focusing solely on stiffness. In everyday play, this is particularly noticeable during lateral pushes and when moving quickly from the starting position.

For a precise fit, it's worth carefully selecting the junior size and adjusting the fit around the ankle area.
